To configure IMAP access for your BlackBerry, just follow these steps:

1. From your BlackBerry home screen, select the **BlackBerry Set-up** icon, then choose **Personal Email Set-up**. (On older devices, just look for the **Personal Email Set-up** icon.)
2. Select **Personal Email Set-up**.
3. Accept Terms and Conditions.
4. On the 'Email Account Set-up' page, enter your full email address (including '@yourdomain.md') but leave the 'Password:' field blank. Select **Next**.
5. You'll see a screen that says 'We were unable to configure [username@yourdomain.md].' Select **I will provide the settings to add this email account**, then **Next**.
6. Select **Internet Service Provider Email (POP/IMAP)**, then **Next**.
7. Select **I will provide the settings to add this email account**, then **Next**.
8. You'll see 'The BlackBerry Internet Service could not configure [username@yourdomain] email account.' Select **Provide The Settings** to continue.
9. In the 'User name:' field, enter your full email address (including '@yourdomain.md'). Then enter your password in the 'Password:' field.
10. In the 'Email server:' field, enter 'imap.mdemail.md,' then select **Next**.
11. If IMAP access was successfully configured, select **OK**.
12. Below your newly added .mdEmail address, select **Edit**.
13. Select **Advanced Settings** at the bottom.
14. Make sure the port is set to '993' and 'Use SSL' is set to 'Yes.'
15. Select **Save**.

There should now be a new mailbox icon on your BlackBerry home screen labeled with your mdEmail address. Once you see this icon, follow these steps to ensure proper configuration:

1. Open the mailbox icon.
2. Open the menu by pressing the jog wheel or BlackBerry menu button, then select **Options**.
3. Select **Email Reconciliation**.
4. Confirm the following settings:
    o Delete On: Mailbox & Handheld
    o Wireless Reconcile: On
    o On Conflicts: Mailbox Wins
5. Select **Save**.
